Start at the bus shelter on the main road through Felindre. Take the side road signposted ‘Ammanford’. After about 40 yards turn right opposite ‘Glan-nant’ and walk along this road past the Shepherds Arms and Felindre school.

About 200 yards after the school turn right and walk along the track towards Lletty Thomas Farm and the reservoir. After about 140 yards cross over the stile on your right into a field. Walk diagonally across the field leaving the electricity pylon to your left and downhill to another stile. Cross over this stile and continue along the level path through fields. Cross three more stiles until you emerge onto the dam across the reservoir.

Turn right across the dam to the car park, toilets and café, then turn left and follow the road alongside the reservoir for about one mile, passing a house on your right, until you reach a small gate on your left at the northern end of the reservoir.

Walk through the gate and down the steps to a grass picnic area. Cross the footbridge over the stream and follow the footpath on the opposite bank of the reservoir and return to the dam.

Retrace your footsteps along the footpath back to Felindre.
