Street Renaming at Residents Request	£110.00 plus £40.00 per property + legal costs + replacement street nameplate costs

Note 1

Normal practice is to only confirm property numbering to developers when properties are complete or substantially built. Once property numbering has been confirmed to a developer many organisations such as emergency services, utilities and internal departments are also informed.

The practice of naming and numbering developments prior to build commencement is not encouraged due to the disruption and confusion caused by developers when layouts are changed. The Authority will consider numbering properties before work has commenced under certain circumstances. Please refer to points 2.5 to 2.9 of the Authority's Street Naming and Numbering (SNN) Policy.

Note 2

Requests from residents to rename streets are rare and can be extremely controversial. Please refer to Section 7 of the Authority's Street Naming and Numbering (SNN) Policy.

Note 3

Fees are to be included with SNN applications. Cheques made payable to 'City and County of Swansea'. Application forms are available for download at:
